GERMANS FORCE RUSSIANS TO ABANDON YET ANOTHER DEFENSE

Important Gains Along Main Eastern Fronts Conceded by Allies as Made During Past 24 Hours.

LITTLE ACTIVITY ON OTHER BATTLE FIELDS

Conditions in Constantinople Described as Chaotic; People Terror Stricken and Starvation Near.

(By Evening Herald Leased Wire) London, Sept. 13 (U. S. A.)—The Austria-German armies on the eastern front, still striving for definite results, are making progress everywhere except along the Galician frontier, where the Russians report a further success.

In the north, where the Russian line has been strengthened by a withdrawal of forces, Field Marshal von Hindenburg is directing a violent drive towards Danzig and a crossing of the Oder. In the center Crown Prince Leopold has forced his way over the Zetwander and is attacking in the vicinity of Skoplitz. To the south Field Marshall von Mackensen on both sides of the Prusso railroad is pressing eastward toward the town. These movements have resulted in the capture of several thousand Russians.

On the other fronts there is little to report. It appears to be established that Bulgaria has struck a bargain with Turkey and Premier Radovitch is in Rome in response to an appeal of the Armenian states that seem to be now on the most friendly terms with Constantinople.

LONDON PAPER DEMANDS REPRISALS FOR AIR RAIDS

London, Sept. 13 (U. S. A.)—Another Zeppelin raid was made over the east coast of England last night. There were no casualties.

The attack is described as the following official statement:

The east coast was again visited by hostile aircraft last night (Sept. 12-13th). Bombs were dropped but there were no casualties and the only damage reported is that some telegraph wires are down and some glass is broken.

The demand is made by the Globe for effective measures of reprisal for the Zeppelin raids.

It is useless to disguise the fact that nothing big or strong will be done unless the government is forced to act by public opinion. The Globe says: "Let the German realize that for every peaceful town in this country that is bombarded a dozen peaceful towns in Germany will be bombed." Let them also know that for every life lost in every amiable dwelling destroyed we shall exact a liberal toll from the monies of wealthy Germans who fattened on our commerce and who drake their dividends from our people. The effect would be magical.

NAVAL BATTLE BETWEEN AUSTRIA AND ITALY REPORTED

Rome, Sept. 13 (U. S. A.)—A battle between Italian and Austrian naval forces, the former assisted by a French submarine, occurred on Thursday last in the Adriatic sea. The ministry of marine announced today that one of the Austrian torpedo boats had been damaged seriously.

The statement follows:

The French submarine Pugil, assisted by our naval forces, torpedoed on Saturday last in the Adriatic near Cagliari a group of Austrian torpedo boats one of which was damaged seriously.

BERLIN SAYS BATTLE TIDE ON DIVINA HAS TURNED

Berlin, Sept. 13 (U. S. A.)—The battle along the Divina river, which has been virtually in a state of deadlock for several days, has swung in favor of the Germans. The war office announced today that the Russians have been elected from several positions on the left bank of the river. This battle probably will decide the fate of Rumania.

HAND TO HAND FIGHTING REPORTED BY FRANCE

Paris, Sept. 13 (U. S. A.)—The French war office today gave out a statement on the progress of hostilities which says:

"Several hand grenade volleys were reported during the night near the Bethune-Arles road and an enemy attack was easily repulsed to the north of the Souchez station. At the same time there was artillery action on both sides."

"In the Lorraine front our batteries directed an efficacious fire on the German trenches and organizations in the neighborhood of Embreton, Leintrey and Anserville. Enemy groups which left their trenches and

advanced up to our wire entanglements were dispersed by our infantry fire."

CONSTANTINOPLE CONDITIONS DESCRIBED AS CHAOTIC

London, Sept. 13 (U. S. A.)—Conditions in Constantinople are described as chaotic by Reuter's correspondent at Athens, who bases his dispatch on statements made by persons arriving in Athens today from the Turkish capital. The correspondent telegraphs:

"The inhabitants of Constantinople are suffering greater hardships than is necessary because the committee of national defense, run by Enver Pasha, minister of war, and Tashif Bey, minister of the interior, has cornered all the commodities and is selling them at high prices.

"The resignation from the cabinet of the Sheik Ul Islam, representative of the sultan in religious affairs, is confirmed. He disapproved of the extermination of the Christian elements against which he protested to the cabinet. The Greek-Armenian patriarch has been deprived of all powers.

"The Black sea end of the Dardanelles has been closed by a chain of wire netting and mines."

TURKISH ARMY ON VERGE OF REVOLT, SAYS REPORT

Athens, Sunday, Sept. 12 (U. S. A.)—An American citizen of standing in Athens has received advice from Constantinople which he says is trustworthy, that the situation of the Turkish army and government is unfavorable. According to this information the position of the Turkish forces defending the Dardanelles is precarious. It is said the Turkish front, thinned by the heavy losses which the fighting has entailed on both sides, is finding it increasingly difficult to hold the lines against the French and British.

Turkey's position at sea is described as disadvantageous. The former German cruisers Goeben and Breslau are said to have been incorporated while the Russian fleet plays upon Turkish shipping.

According to this information Turkish affairs are under the control of a triumvirate with autocratic powers, consisting of Enver Pasha, minister of war, Tashif Bey, minister of the interior, and Bedri Bey, chief of police of Constantinople.

The American informant states that Armenians are being shipped to concentration camps at various points, being driven about or forwarded in box cars. He adds that the earlier massacres of Christians in Asia Minor are being duplicated in the present instance and that in some cases only a comparatively small part of the expelled Armenians reach the concentration camps alive. Henry Morganthau, American ambassador at Constantinople, has exerted every effort to protect the Armenians but apparently his endeavours have been unavailing. It is stated that American women who attempted to go with the refugees to look out for Armenian children were turned back, and that a number of young Armenian girls are being held.

Today's War Summary

England again has been visited by German Zeppelins, the latest raid over the east coast occurring last night. Like the one of Saturday night, reported yesterday, however, the raid was harmless to both life and property, according to the British official account, the only damage being breaking of glass and of telegraph wires.

A German attack north of the Somme station was safely repelled, today's French war department statement says. Infantry assault on the Lorraine front broke down before the wire entanglements under the fire of the French infantry. Artillery activity some of it of a violent nature, was in evidence in many sectors.

Another Hungarian memorandum regarding the request of the United States for the recall of Ambassador Dumba is divided, according to indications supplied by articles in the Vienna newspapers. One section apparently is convinced that the ambassador acted without orders from his government while the other upholds his course as is true with his duty.

The British parliament at its assembling tomorrow will take up the problem of increasing the national income. It is expected, as a financial measure, that the scope of the income tax will be considerably broadened.

New measures, the exact nature of which is not indicated, are to be employed by the entente allies in the future conduct of the war, according to reports in Rome, where it is said the next meeting of the Italian cabinet will deal with the subject.

There seems to have been little recent activity in the Dardanelles, the Turkish official statement mentioning only artillery actions.

Reports from various quarters describe conditions in Constantinople as chaotic with much suffering among the population while other reports coming through Athens declare that the position of the Turkish forces on the Gallipoli peninsula is precarious.

Romanian reservists in Italy have been called to the colors, advised

BANKERS OF WHOLE NATION ASKED TO ASSIST IN ARRANGING GREAT LOAN

James J. Hill, Festus J. Wade and Financial Leaders of Middle and Western States Called Into Conference.

SUCCESS CONSIDERED VITAL TO THIS NATION

Hill Declares That Provision of Huge Advance Required by England and France a Commercial Necessity.

(By Evening Herald Leased Wire)

New York, Sept. 13 (U. S. A.)—Financiers of the west and northwest came to New York today to lend a helping hand to the Anglo-French financial economists in their task of arranging a way by which Great Britain and France can pay for the hundreds of millions of dollars worth of imports already shipped abroad and other vast amounts contracted for and contemplated.

The first of those arrivals was James J. Hill, railroad builder and financier of St. Paul. Mr. Hill was said to be provided with data upon which he based his belief that the flotation of a mammoth credit loan here to Great Britain and France is of more vital interest, perhaps, to the United States than to the two countries seeking the loan.

Festus J. Wade of St. Louis, prominent in financial circles in the west, was another out-of-town banker who was registered here today. It was said Mr. Wade would probably see members of the commission late today. Bankers from Chicago and Cincinnati also were said to be in town on their way here.

The commission, it is understood, was not at all heartened by the result of preliminary canvass of financial institutions throughout the country a few weeks ago. This canvass showed, as far as reliable reports, that not more than \$100,000,000 of foreign loans could have been subscribed toward the proposed foreign credit loan at that time. The minimum amount sought by the commission is half a billion dollars. Recently the talk has been of a billion dollars.

All, therefore, from out-of-town financiers and a general realization of the close communion between the establishment of the credit and the continuance without check of the great volume of American exports were welcomed by the commission and local financiers alike. The sentiment voiced in Wall street today was that the time had come for the bankers of the country and every one else interested in the continuance of American prosperity to help the commission in accomplishing its task.

The commission, it is understood, was not at all heartened by the result of preliminary canvass of financial institutions throughout the country a few weeks ago. This canvass showed, as far as reliable reports, that not more than \$100,000,000 of foreign loans could have been subscribed toward the proposed foreign credit loan at that time. The minimum amount sought by the commission is half a billion dollars. Recently the talk has been of a billion dollars.

The commission checked its movements today and even its whereabouts with secrecy. It was said that a meeting was being held but where or with whom was not divulged.

Later in the day it developed that the meeting as between the commission and J. P. Morgan, Henry P. Davison, of the Morgan firm and Frank A. Vanderlip, president of the National City bank, Messrs. Morgan, Davison and Vanderlip called at the Hotel Biltmore where the commissioners are staying and were the commission's luncheon guests. The conference lasted well into the afternoon.

RUMOR OF BATTLE OF SETTLERS NEAR BARTON

(Socorro, N. M., Sept. 13)—Rumors reached here today of a battle among homesteaders near Barton this morning, in Estancia valley last night in which several are reported to have been killed. Sheriff Closson and a posse of three men left here in an automobile this morning for the scene of the alleged battle but have not been heard from. The telephone lines to all Estancia valley points are down and no communication with the section can be had.

Telephone connection with Estancia valley points could not be had from Albuquerque this afternoon. All wires were down. All efforts to confirm the Santa Fe rumor were without result.

No word of the reported trouble had reached this city.

Here's a Sample of How Albuquerque Backs State Fair

The boxes in the grand stand at the state fair grounds were offered to the public for advance sale by subscription Saturday at noon.

These boxes were offered to subscribers at \$50 each. That amount is about what they are worth in single admissions if every available seat in a box is used every day and every evening during the fair.

The boxes, however, were not offered on a basis of cash value,

but on the basis of Albuquerque's enthusiasm for and backing of the state fair.

Today at noon seventeen boxes had been sold at \$50 each to seventeen individuals and institutions, not one of whom raised a question as to the price. One box has been reserved for fair official purposes and another has been given as a prize to the winners in the fair fund subscription contest.

The men and institutions who subscribed for the boxes are:

Gross, Kelly & Co., by W. H. Booth.

R. H. Pollock.

First National Bank, by M. W. Flournoy.

State National Bank, by J. B. Herndon.

Occidental Life Insurance Co., by George Bostington.

Charles Bield Co., by Max Nordhausen.

Frank A. Hubbell.

L. B. Putney.

Albuquerque Gas, Electric Light and Power Co., by W. F. Southard.

Governor William C. McDonald.

Felix Martinez of El Paso.

J. H. Latham of Lake Valley, Sierra county.

A. A. Rogers of Portales.

U. S. Senator T. B. Catron.

Journal Pub. Co.

Alfred and Ivan Grunfeld.

Every one of these institutions and individuals who live in Albuquerque already had subscribed heavily to the fair fund.

They snapped up the boxes when the subscription was offered, just as a further evidence of the backing they are ready to give the state fair.

This is the kind of spirit that is behind Albuquerque and the state fair commission in state fair building this year.

CONFERENCE UPON MEXICO WILL BE RESUMED AT WASHINGTON THIS WEEK

Supplementary Note Said to Be on Way from Carranza Outlining Definitely Matters He Will Consider.

VILLA EXPLAINS WHY HE KILLED URIBA

Perfectly Good Reason for Slaying Subordinate Furnished by Bandit Chief; Kidnapped Man Safe.

PRESIDENT WILL LAY CORNERSTONE AT ARLINGTON

Washington, Sept. 13.—A strict quarantine against all passage from Mexico into Texas, except with the permission of the United States military authorities was put into effect today along the lower Texas border by state health officials. The quarantine was designed to aid the border patrol in keeping out of the state persons suspected of having no legitimate errand in the United States.

The first result of the order was to stop virtually all traffic across the international boundary. In consequence much inconvenience was experienced here today. Numbers of Mexicans who make their homes in Piedras Negras are employed by local industries. V. E. McFarland, state quarantine officer telegraphed a protest of Governor Ferguson against operation of the quarantine order here because, he said, there was no evidence of serious trouble in this region.

It was reported that several Americans had been detained on the south side of the river by the quarantine order.

PRESIDENT WILL LAY CORNERSTONE AT ARLINGTON

(By Evening Herald Leased Wire)

Washington, D. C., Sept. 13.—President Wilson has accepted the invitation of the Grand Army of the Republic to lay the cornerstone of the new amphitheater in Arlington National Cemetery, across the Potomac river from Washington, during encampment week. The ceremony will take place on Thursday, September 20, the day following the grand review of the veterans.

The members of the encampment, by which is meant the business organization of the Grand Army, will attend the cornerstone laying in a body and assist the president in the exercises.

One of the features in connection with the Grand Army Encampment is the Women's Relief Corps, who with their allied organizations will have the leading part, will be the planting of two trees, one on each side of the boulevard leading to the Lincoln Memorial in Potomac park, in the planting of the trees the first apéde of earth will be turned by David J. Palmer, the commander-in-chief of General Carranza's latest note.

Unofficial reports have reached here that a supplementary note is to be sent from Carranza sources outlining in detail what might be made matters of joint consideration. This would include war indemnities and guarantees to foreigners.

VILLA CONFIRMS EXECUTION OF URIBA AND TELLS WHY

Washington, Sept. 13.—Confirmation of the execution of General Tomás Uríba by General Villa was received directly from General Villa today by Enrique Llerena, his agent here.

In explanation of General Uríba's execution, General Villa sent this statement:

"For some time past the behavior of General Tomás Uríba has become intolerable because without any scruples whatever, he executed all persons who incurred his displeasure. Of his acts, we have of late no account whatever to headquarters, nor to any authorities whom he was obliged to respect and obey.

"Under these conditions and taking into consideration the increasing insubordination and cruelty of General Uríba and propagandas of disintegration that he was conducting in the very body of the convention army under my command, and his complete lack of respect for the life and property of nationals and foreigners I

decided to do what I did.
